## Child Development: Issues and Country Experiences

By Anusri Mallik

SBS Publishers. Hardback. Book Condition: new. BRAND NEW, Child Development: Issues and Country Experiences, Anusri Mallik, Child development refers to the biological and psychological changes that occurs in human beings between birth and the end of adolescence, as the individual progress from dependency to increasing autonomy. Developmental change may occur as a result of genetically-controlled process known as maturation, or as a result of environmental factors and learning, but most commonly it involves an interaction between the two. One of the most relevant aspects in the socio-economic progress in the developing countries is the development of children. Children are the future resource of a country and thus its supreme assets. The optimal development of children is considered vital to society and so it is important to understand their social, cognitive, emotional and educational development. The early development of cognitive skills, emotional well-being, social competence, and sound physical and mental health builds a strong foundation for success well in to the adult years. Beyond their short term importance for positive school achievement, these abilities are critical prerequisites for economic productivity and responsible citizenship throughout life. All aspects of adult human capital, from workforce skills to co-operative and lawful behaviour are...
