Mathematical Logic: A First Course

By Mathematics

Dover Publications. Paperback. Book Condition: New. Paperback. 238 pages. Dimensions: 8.3in. x 5.3in. x 0.5in. Suitable for advanced undergraduates and graduate students, this self-contained text will appeal to readers from diverse fields and varying backgrounds including mathematics, philosophy, linguistics, computer science, and engineering. It features numerous exercises of varying levels of difficulty, many with solutions. A survey of the propositional calculus is followed by chapters on first-order logic and first-order recursive arithmetic. An examination of the arithmetization of syntax follows, along with a review of the incompleteness theorems and other applications of the Liar Paradox. The text concludes with a study of second-order logic and an appendix on set theory that will prove valuable to students with little or no mathematical background. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
