Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).

FOUNDATIONS OF MATERNAL-NEWBORN AND WOMEN S HEALTH NURSING (PAPERBACK)

Elsevier - Health Sciences Division, United States, 2018. Paperback. Condition: New. 7th Revised edition. Language: English . Brand New Book. Make sure you fully understand how to care for women and newborns! Foundations of Maternal-Newborn and Women s Health Nursing, 7th Edition integrates essential maternity information into the overall continuum of nursing care to show how to provide safe care in the clinical setting. With easy-to-understand language, this updated text uses evidence-based guidelines and step-by-step instructions for assessments and interventions to help you quickly master key skills and techniques. Also emphasized is the importance of understanding family, communication, culture, patient teaching, and clinical decision making. This edition reflects the latest QSEN competencies, and the accompanying Evolve website includes review questions to prepare students for the NCLEX (R) exam! Safety checks integrated into the content help you develop competencies related to safe nursing practice. Unfolding case studies help you apply what you ve learned to practice. UPDATED Evidence-Based Practice boxes highlight the latest research and the most current QSEN (Quality and Safety Education for Nurses) practice guidelines for quality care. Patient teaching boxes provide teaching guidelines, including communication guides, directed at patients and families. Critical to Remember boxes highlight and summarize need-to-know information. Critical Thinking exercises focus on clinical situations designed to test your skills in prioritizing and critical thinking. Nursing Care Plans help you apply the nursing process to clinical situations. Chapter summaries appear at the end of each chapter and help you review core content in each chapter while on the go. Updated Drug guides list important indications, adverse reactions, and nursing considerations for the most commonly used medications. Procedure boxes provide clear instructions for performing common maternity skills, with rationales for each step. UNIQUE! Therapeutic Communications boxes present realistic nurse-patient dialogues, identifying communication techniques and showing to respond when...
