

Exploiting Online Games: Cheating Massively Distributed Systems

Filesize: 1.04 MB

Reviews

Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

EXPLOITING ONLINE GAMES: CHEATING MASSIVELY DISTRIBUTED SYSTEMS

DOWNLOAD

Pearson Education (US), United States, 2007. Paperback. Book Condition: New. 231 x 178 mm. Language: English . Brand New Book. Imagine trying to play defense in football without ever studying offense. You would not know when a run was coming, how to defend pass patterns, nor when to blitz. In computer systems, as in football, a defender must be able to think like an attacker. I say it in my class every semester, you don t want to be the last person to attack your own system--you should be the first. The world is quickly going online. While I caution against online voting, it is clear that online gaming is taking the Internet by storm. In our new age where virtual items carry real dollar value, and fortunes are won and lost over items that do not really exist, the new threats to the intrepid gamer are all too real. To protect against these hazards, you must understand them, and this groundbreaking book is the only comprehensive source of information on how to exploit computer games. Every White Hat should read it. It s their only hope of staying only one step behind the bad guys. --Aviel D. Rubin, Ph.D. Professor, Computer Science Technical Director, Information Security Institute Johns Hopkins University Everyone s talking about virtual worlds. But no one s talking about virtual-world security. Greg Hoggund and Gary McGraw are the perfect pair to show just how vulnerable these online games can be. --Cade Metz Senior Editor PC Magazine If we re going to improve our security practices, frank discussions like the ones in this book are the only way forward. Or as the authors of this book might say, when you re facing off against Heinous Demons of Insecurity, you need experienced companions, not to mention a Vorpal..
